Poster Abstracts

We have begun planning the program and are looking for your input. Do you have any ideas for the program? What topics would you like to see covered? Do you know any speakers that you may have heard at another conference that you think other educators would like to hear?

One of the key reasons that CNRC conferences are so highly rated is that the **program is created entirely by our respiratory and tobacco educators** specifically to meet your continuing education needs.

Please take a moment to share your ideas:

Presentations, Workshops & Posters

Our Calls for Plenary Presentations, Workshops and Posters have opened. We will be continuing the popular "two-minutes/two slides" format that we introduced at our last conference for our poster presentations. Please give me a call in the office if you have any questions or want to bounce around ideas about a session or workshop at **905-880-1092**.
